

TEN TIPS TO Keep Baby Safe

1. Use a **car seat** for every trip.

2. Put baby to sleep alone, **on his back**, in a crib.

3. Test water temperature and keep a hand on baby during bath time.

4. Keep **poisons** out of reach... think medicines, cleaners, makeup.

5. Cover electrical outlets, put safety latches on drawers and doors.

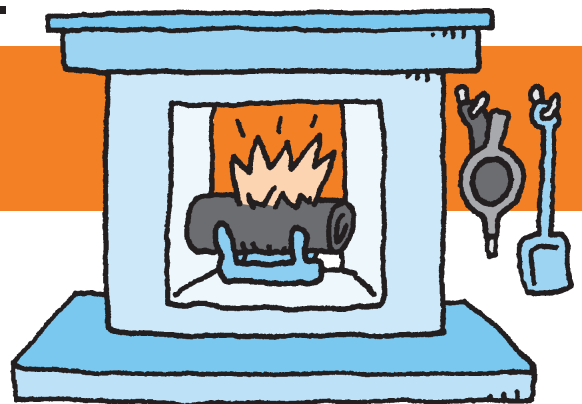

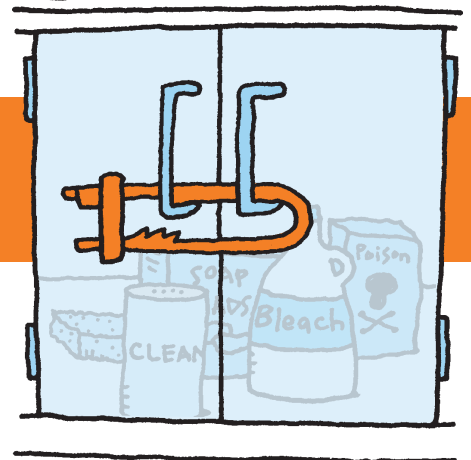

6. Install **safety gates** at stairs and doorways.

7. Watch for **choking hazards**, that's anything that can fit into a toilet paper roll.

8. Keep baby away from hot stove, fireplace, matches.

9. Have a **smoke alarm** on every floor.

10. Put away all **knives, scissors** and other **sharp objects**.
